SUMMARY Thesis	Preston Calo Whitaker is our family risk use case. After initially seeing Sovra in action for a reputational business case. The father engaged the system for a one-time check on his disuplier's new brinder. What began as a resissuring profile—polished, antibility could connected —quickly revealed potential hidden risks through guided disovery: narrossatic social media case, consistent sports beging transactions, voldel public commercial conditions and concealed travel to Las Vegas. This experience illustrates how the platform not only surfaces what other miss but also promotishe firight questions the user wouldn't think to							
Inciting Incident	ask. His daughter is staring to get serious about the new boy in her life, Preston, and Sorva can provide an assessment on potentail risk of bringing Preston around not only his daughter but the family.

Inconsistencies								
BIOGRAPHICAL NARRATIVE	Preston Cole Whitaker III, age 22, is a student at the University of Texas at Austin. He holds a leadership role in a university social club and is seen as outgoing, socially skilled, and ambitious. His family is highly respected — his under is a Texas judge with senior political lies. Outwardly, Preston appears as a strong match for the daughter: well-mannered, arcticulate, and family-anchored in a positive social environment. IMPRESSIONS NARRATIVE	Prestor presents as confident and socially adept. His polished manner and easy charm atlow him to navigate seamlessly between social groups — from fratefining gatherings to alumni dinners with his family. He is viewed by many as ambitious and outward-facing, with strong interpersonal skills. However, his financial and digital foothirs suggest a different story beneath the surface: impuisivity, volatility, and concealed behaviors that do not align with the wholesome image he presents to family and peers.							
VALIDATOR 1	Sociability (0.8): Serves as a natural connector in his social group, often organizing events and drawing in new members.	Icon driven Personality summation						
VALIDATOR 2	Ambition (0.7): Pureuing leadership opportunities in compus organizations, positioning	curu						
VALIDATOR 3	himself as a future professional success. Family Anchoring (0.9): Well-connected family provides stability, legitimacy, and access to							
VALIDATOR 4	influential networks. Adaptability (0.8): Moves comfortably between high-visibility family events and the informality of student life.							
RISK NARRATIVE	On the surface, Preston looks like the kind of young man any parent would welcome into their family — he's polite, sociable, and comes from a well-respected Texas family with storing judicial end political feet. That is the whelle layer. But when we go deeper, we start to see behaviors that suggest current and future risk. Financial salvey shows a new pattern to consistent sports betting — amail payments gambling. And when the bets don't go his way, he verificated properties of the start of th							
Reputational Risk	Reputational Risk (High): Gambling transactions (e.g., Vennon notes such as "lock," "parlay," and "UT spread") and volatile instagram comments directed at UT football players ("Yall cost me — pathetic") could surface publicly, attaching controversy not only to Preston but to the family he is associated with. Travel to Las Vegas during the same time as an invocant finals week at UT.	Visual timeline Card; Geographical Timeline Card						
Network Risk	,							
Security Risk	Security Risk (Medium): Gambling debts or financial pressures could open Preston to coercion. If connected to the family, those pressures could spill over into reputational or financial exocure for the father.							
Interpersonal Risk	Interpersonal Risk (High): Narcissistic and votatile tendencies raise the likelihood of instability in his relationship with the daughter, potentially generating public fallout (social media drama, hostile breakups) that drags the family into headlines.							
Family Risk	Family Risk (Elevated): Association with a politically connected, respected family (Whitakers) amplifies the stakes. Any public scandal involving Preston could quickly escalate to broader networks, reflecting poorly on the executive father's judgment and household.
